

Create QR code for Shuttle Mobile App

01. Go to Below link -

<https://www.the-qr-code-generator.com/>

02. Select 'Contact'

03. Name - Type a name to identify the route (use a meaning full name here to identify the branch/plant and route#)

04. Scroll down to bottom of the form and Copy and paste the Shuttle "locator Link" URL in filed "URL/Website" (make sure to use <https://shuttle.kloudip.com> as clear text http:// will not work on newer mobile phones)

The screenshot shows the 'QR Code Generator' website interface. The top navigation bar is green and contains a 'Sign In' link and the title 'QR Code Generator'. Below the navigation bar, there are five tabs: 'FREE TEXT', 'URL', 'CONTACT', 'PHONE', and 'SMS'. The 'CONTACT' tab is selected and highlighted with an orange underline. To the right of the tabs is a green 'SAVE' button with a floppy disk icon and a three-dot menu icon. The main content area is divided into two columns. The left column contains a sidebar with links: 'QR Code', 'Scan', 'Generate', 'About', 'What's a QR Code?', 'Privacy', 'Terms', 'Imprint', 'More', 'PDF Mergy', 'Screencastify', and 'Cam Recorder'. The right column contains a form with the following fields: 'Name', 'First Name', 'Organization', 'Email', 'Phone', 'Cell', 'Fax', 'Street', 'Postcode', 'City', 'Region/State', 'Country', and 'URL/Website'. To the right of the form is a 'Static QR Code' section displaying a QR code with a red star in the center. Three orange arrows point to specific elements: one points to the 'Name' field with the label '1. Route Name', one points to the 'URL/Website' field with the label '2. Paste Shuttle Locator link URL', and one points to the 'SAVE' button with the label '3. Click Save'.

05. Then click "save" to download the QR code
